

## **DAAS THEATRICALS BARRYMORE**

### **Technical Specifications:**

#### **LIGHTING:**

Please see attached Provincetown Town Hall Theater light plot for reference.

- 9 – 6x9 lekos 575w
- 1 – 6x12 leko 575w
- 8 – fresnels 500w
- 1 – antique fresnel 500w\*
- 5-6 – footlights 100w\*
- 1 – ghostlight 100w\*

\* – These instruments are included as part of our set and have stagepin (3 pin) connections. Based on Provincetown Town Hall Theater specifications, modification as needed.

#### **SOUND:**

- One live microphone SL
- Sound control able to pan SL mic source from SL across to SR and back and add reverb
- Dual mixable CD (preferred) or mini disc
- Wireless body mic depending on acoustics

#### **TECHNICAL STAFF:**

- Stage Manager
- Soundboard Operator
- Lighting Board Operator
- Load-in/out crew of four to six

#### **MISCELLANEOUS:**

- Two dressing rooms with adequate lighting and make-up mirrors
- At least one private bathroom

#### **NOTES:**

All other set, property costuming and antiquated lighting is included with our production. If, however, the theater has three large muslin flats (the older and worn the better) and an old-fashioned costume rack (with or without old costumes) we would prefer to use them due to the awkwardness of transportation.

An able crew of four to six should be able to achieve a complete put in and tech well within a maximum of six hours; and strike within three hours.

If necessary and at additional cost, Daas Theatricals may be able to provide the items and positions listed under SOUND and TECHNICAL STAFF.
